PROCEDURE: Add water to mixing tank. Start mixing and add the disodium EDTA. Slowly sift carbopol into water with good agitation and mix until completely dispersed. Add remaining ingredients in water with good agitation and mix until completely dispersed. Add remaining ingredients in Part A and mix completely. Pre-blend ingredients in Part B and add to batch and mix. Add ingredients in Part C in order shown and mix completely. Combine ingredients in Part D and add to batch and mix completely. Slightly warm the shea olein until melted. Add and mix completely. Add color to match standard. Mix batch completely insuring that the batch is completely smooth and homogeneous. (Caution; Be careful to avoid air entrapment)

pH: 5.0 – 6.0

Viscosity: 60,000-80,000cps

This rich foaming formula highlights the cleansing properties of **Lipex Shea Betaine (Shea Butteramidopropyl Betaine)**. It also exhibits the extraordinary conditioning attributes of the **Lipex Shea Q (Shea Butteramidopropyltrimonium Chloride)**. It also provides the wonderful creamy emollient properties of the **Lipex 205 (Butyrospermum Parkii (Shea Butter))** leaving your skin feeling soft and supple.
