## **INTRODUCTION**

Vege Tech Fruit & Vegetable Purees differ from our Botanical Extract lines by reason that they are not specifically fluid extracts. They are the actual purees and therefore contain a wide range of constituents normally associated with the whole fruit or vegetable. This means that a specialty puree product could potentially contain the Flesh, Skin, Juices and the Seeds. The associated Sugars, Fruit acids, Pectins, Carbohydrates, Vitamins & Minerals remain intact as they would in their fresh whole state. The Purees have been processed to be readily incorporated into a wide range of personal care formulations and are stable for unrefrigerated storage.

The Features and Benefits of Vege Tech Fruit and Vegetable Purees are as bountiful and limitless as the known existing literature on the whole fruits or vegetables themselves. For instance it is well known that most Apples contain naturally high levels of Fruit Pectins which are well known to add Humectancy and Moisturizing properties to the skin. Citrus fruits contain high levels of Fruit Acids which are excellent for use with Alpha & Beta Hydroxy Acid Skin Treatments, Exfoliants and Cleansers. Avocados are rich in natural Lipids which are effective at Skin Moisturizing. Strawberry and Kiwi contain natural Fruit Acids and seeds which are excellent in Facial, Body or Foot Scrubs. Tomatoes contain healthful, natural Lycopene, which is a powerful Antioxidant. Corn is rich in Sugars, Carbohydrates and Lipids. Papaya contains the enzyme Papain which exhibits good Exfoliation activity as well as Vitamins D, E & K. And of course Cucumber is a well know skin Anti-Inflammatory that has been used by countless generations to reduce puffiness and swelling around the eyes.

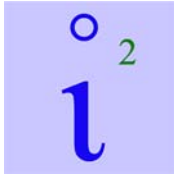

## **FEATURES & BENEFITS**

- **All the Benefits of Whole Fruits & Vegetables**
  - **Easy to Incorporate Puree**
  - **Stable for Unrefrigerated Storage**
  - **Natural Constituents & Actives**
- **Custom Blends & Special Requests Available**

<b>Name Of Puree</b>	<b>Vege Tech #</b>	<b>INCI Name</b>
Apple Puree	VT-0817.000W	<i>Pyrus Malus Fruit</i>
